Golden Sun - CNC Rotary Tables & Accessories - CNC Milling ...

Our company has a Golden Sun rotary table that we have never used. I'm told that it is not a 4th axis but just an indexer. I got online and looked it up. Ours is a "CNC-201R" model. It claims it is a true 4th axis. I mentioned that maybe it was our software or a parameter in the mill that limited it.

These rotary tables and indexers are all capable of being mounted in both the vertical and horizontal positions and have large thru-holes to give manufacturers maximum flexibility. All Ganro DR Series rotary tables and indexers use Ganro's core technology of a double lead worm shaft and worm wheel system for high precision and reduced backlash.
